

## **Maintenance Report**

Since our last meeting little has been carried out with regard to maintenance. I will be sitting in on the Parish Finance meeting on Tuesday 11th. to brief them on a list of priority works that should be looked at. In the meantime further problems have been noted that we have a leaking roof at the church. This will be looked at more closely when and if we get rain.

The hire of the Chapel and Hartigan Centre is still taking place over the 2020 period. An approach has been made by Jan Scanes to use the Chapel for a Bushfire Relief Concert on Saturday 14th. It is to be run in aid of the people at Cabargo. I will have more information to give at the meeting. I hope!

I would like to organise a working "B" at some stage within the next month to get rid of builders rubbish and other "STUFF" that's been around since the building program started. It involves utes or trailers to take the rubbish to the tip. Also a number of heavy buckets to lower the loose rubbish down over the front verandah from upstairs. I would think that if we could get 8 to 10 people the work would all be done in a couple of hours or so.
