

- I had a conversation with Georgia in May, where we discussed the possibility of having some social SAYG gatherings between now and the CSYMA program running.
- Georgia was concerned she would be 'stepping on toes' by doing this, so I checked with Michael (Green) if he had any concerns with this happening and he did not.
- I messaged both Georgia and Ethan at the end of May regarding the above, to let them know that a few social SAYG gatherings would be a good idea to instigate some momentum, however as yet, I have heard nothing back from either of them.
- Hopefully there will be some sort of activity between now and the end of term.
